| PRODUCT SPECIFICATION |               |
|-----------------------|---------------|
| Product Name          | GROUND NUTMEG |
| Product Code          | 2271          |

| Quality System            | ISO22000:2005 Food Safety Management         |
|---------------------------|--|
| Certified and implemented | Systems, BRC Global Standard for Food Safety |
| ·                         | and implemented the HACCP system according   |
|                           | the EU standard.                             |

| PRODUCT CHARACTERISTICS     |  |
|-----------------------------|--|
| Origin                      | Various typically: Indonesia, India                                    |
| Product denomination (legal | Myristica fragrans (Myristicaceae)                                     |
| name)                       |  |
| Description of the product  | Ground and sifted dried kernels of the ripe fruit                      |
| Description of the process  | Sun – dried and partially separated from extraneous matter, at origin. |
| Ingredients declaration:    | 100% Nutmeg (spice).   |

| Organoleptic values |   | Method       |
|---------------------|---|--------------|
| Appearance          | Light Brown Powder  | Organoleptic |
| Colour              | Light Brown Powder  | Organoleptic |
| Flavour             | Characteristic, warm, no off flavours or taints               | Organoleptic |
| Odour               | Characteristic, fresh, strongly aroma no off odours or taints | Organoleptic |
| Texture             | Free Flowing  | Organoleptic |

| GMO STATEMENT  |           |
|--|-----------|
| Referring to the EU council regulations 1829/2003 and 1830/2003, we herewith         | issue the |
| following statement concerning the above mentioned product :                         |           |
| Neither the product itself nor any component is produced from raw materials of which | Yes       |
| genetically modified varieties are known.  |           |
| The product or a component is produced from raw materials which are identity         | No        |
| preserved. This statement is based on statements of our suppliers.                   |           |
| The product or a component is produced from raw materials which have a GM origin.    | No        |
| This product needs declaration as GMO.   | No        |

### **IRRADIATION STATEMENT**

There are no known irradiated ingredients present in any of the raw material or finished products manufactured by the NutsinBulk. The company has no intention of knowingly purchasing any raw material or ingredient that has been irradiated.

## **REMARKS**

# Use in production

If the goods or any part thereof supplied under the contract are processed, altered or tampered with in any way by the buyer or receive of the goods or any other person, the quality of the goods shall be deemed to be acceptable to the buyer. All customers' quality control checks are to be completed on the entire load, prior to production and use.

## Infestation

Relating particularly to Coriander Seed, Whole Chillies and Fennel Seed: We cannot guarantee that goods will not at a later date, be subjected to infestation, unless specifically vacuum treated or heat treated. Even after treatments, treated goods can be subjected to re-infestation if incorrectly stored. Untreated seeds, herbs and spices in any form, treated with approved chemical fumigants, are still susceptible to possible infestation, as insect eggs are not destroyed by current chemical fumigants.

#### **Nut Statement**

Whilst our suppliers are fully aware of consumer concerns regarding the use of Nuts and Nut products, and in many cases are nuts free sites, they are unable to give categorical assurances that their products are Nut Free from the following reasons:

- Many herbs and spices are grown and processed in close proximity to nuts at various origins
- Transportation can also be a possible source of adventitious cross contamination as many products are transported in containers from origin over which our suppliers are unable to exercise any controls.
